Industri:

- Heat exchangers
- Heating elements
- Water filters
- Air mixers for water faucets
- Boilers
- Calorifiers

- Containers
- Pipes
- Pumps
- Filters
- Cooling systems
- Water evaporators

- Tile, floors and walls
- Stainless steel
- Sanitary facilities
- Washing machines
- Coffee machines
- Electric water kettles

General guidelines for diluting with water:

Dilute MASAVA Lime Remover Extra with water.

Normal: 1:10

Difficult: 1:5

pH: Concentrated ca. 0

Apply on water soaked surface with cloth, brush, sponge or spray. Leave for a few minutes (in closed systems, the reaction time is a little longer) work the area over and rinse well with clean fresh water.

On larger systems, clean using circulation. For smaller applications, a soaking method can be used.

After using MASAVA Lime Remover Extra thoroughly rinse the item, surface or system with fresh clean water.
